WHAT IS A HUBSITE USED FOR?

Created by rwcweb.com

Just about every Affiliate Marketer knows you have to have a website to do business online.

That said, if you've been in the game and/or have been failing At Affiliate Marketing You're not alone.

Every Guru knows that when you fail it's time to learn. And there has never been a more profound statement Knowledge Is Power when it comes to making money online. When you know what to do that is.

Kind of crazy how the top 1% of Affiliate Marketers are crushing it as they say. And so many more can't even get out of the gate to get something going. We've all been there more than a few times. It's nothing to get discouraged about. I know you work hard on your current job. Maybe you dislike your boss and what you do.

The one thing is for sure, you have to have some kind of website bottom line. Being on social media and sites like youtube are for your marketing. Can you make money without a website? In fact yes, however you probably won't be able to scale your business and take it to the next level. And yes Affiliate marketing is a business.

WHY USE BLUEHOST FOR YOUR WEBSITE HOSTING?

Created by rwcweb.com

Bluehost is NOW a One Stop Shopping Platform. I've been using them for years and I have to say a while back I had to drop them as they had some growing pains. I tried several different Hosting Services and they failed me tremendously.

Imagine waking up in the morning going to your website and it's gone! Yes back then some web hosting companies couldn't guarantee 100% up time.

There are tons of web hosting programs that offer the same features only at an additional cost. No matter which Bluehost Plan You Select everything is included.

Web hosting
Wordpress Site Builder
Email Addresses
Connect To Canva
Unlimited Websites
Unlimited File Storage
Free Domain - 1st year
And So Much More!

The Best Web Hosting
only \$3.95 per month

HUBSITES - SUB DOMAINS - SHARED HOSTING, OH MY!

Created by rwcweb.com

Summing up, a Hubsite is the first Domain Name you should get to run your Affiliate Marketing Business.

When you sign up for web hosting such as Bluehost you'll get a FREE Domain Name with any plan you select.

You will control all your websites from one central control panel. With Drag and Drop Wordpress Website Builder built in for FREE. No need to add any plugins like elementor.

SubDomain.yoursite.com

This should speak for itself, with-in the Bluehost you'll have shared hosting for all your Affiliate Marketing Websites. Unlimited Websites, Unlimited Sub Domains. In my program I'll show you how to create your FREE Emails. Really you've been paying for email your address that's associated with your website?

You'll always want to look professional and have an email address associated with your business. Such as, yourbusinessname.com with an email associated such as, contact@yourbusinessname.com. Some Affiliate Programs and especially email marketing networks such as Aweber won't accept a none associated email address like a gmail address with your business name. Yourbusinessname@gmail.com is a bit unprofessional.
